

BURR-FREE CUTTING

Point Technologies, Inc. specializes in burr-free cutting of small diameter wire and tubing. We are a certified vendor to companies in the semiconductor, medical, biotech, aerospace and fiber-optics, as well as other demanding, industries. Square burr-free cuts are our specialty. We also offer custom angle-cut ends, vibratory and "Z" axis tumbling, passivation, straightening and surface texturing.

- **Precision, burr-free cuts**
- **Fast deliveries**
- **Wire and tubing**
- **Tight tolerances**
- **All metals**
- **Competitive prices**
- **Outstanding customer service**

PRODUCTS INCLUDE:

- **Razor-edge™ tubing:** Ultra-sharp, small diameter metal tubing for biopsy, trephines and precision hole cutting
- **Micro-fluidics tubing:** Extremely small diameter (ID and OD) metal tubing used in proteomic and genomic laboratory applications, especially Electro Spray Ionization (ESI)
- **Probe needle blanks:** Burr-free cut wire used to make probe needles for IC wafer testing

CAPABILITIES AND TOLERANCES

- **Wire and tubing diameters:** 0.0005" (12μ) – 0.250" (6mm)
- **Lengths:** 0.030" (0.75mm) – 84" (2m)
- **Wire shapes:** Round, half-round, square, ribbon, custom
- **Tumbling:** Barrel, vibratory, Z axis
- **Length tolerances:** From 0.0001" (2.5μ)
- **Lead times:** From 1 to 5 days
